New Passengers vs Target

Insights & Recommendations

1. Overall Trip Performance

Goodcabs completed 425,900 trips against a target of 429,000, achieving 99.28%. January and June were the only months below target.

RECOMMENDED ACTION

Investigate the shortfalls in January and June and implement measures to improve monthly target consistency.

2. New Passenger Acquisition Below Target

Goodcabs acquired 177,000 new passengers against a target of 185,100, missing the target by 4.38%. April was the only month to exceed its acquisition target.

RECOMMENDED ACTION

Investigate what drove April's success and replicate effective acquisition strategies in underperforming months.

3. Passenger Satisfaction Below Target

The average passenger rating was 7.54 against a target of 7.98, a shortfall of 5.39%.

RECOMMENDED ACTION

Identify the main causes of low ratings and prioritize service improvements in the cities with the largest gaps.

Trips by City

City-by-Month Trip Performance

City	January	February	March	April	May	June
Mysore	124.25%	133.40%	131.65%	104.12%	120.28%	113.68%
Jaipur	115.20%	122.09%	102.44%	120.06%	120.79%	103.60%
Kochi	97.92%	102.51%	126.60%	108.47%	111.27%	71.10%
Coimbatore	104.31%	97.26%	105.14%	104.60%	101.43%	90.23%
Chandigarh	97.29%	105.53%	93.84%	92.77%	110.33%	100.48%
Visakhapatnam	99.29%	106.51%	108.38%	98.76%	96.24%	89.56%
Indore	96.24%	103.00%	100.27%	98.87%	103.83%	83.84%
Surat	92.87%	100.77%	102.97%	98.31%	97.74%	85.44%
Lucknow	83.52%	92.77%	86.34%	92.84%	88.23%	93.09%

Insights & Recommendations

1. **Lucknow Has High Trip Volume but the Largest Target Shortfall**
Lucknow recorded 64,299 trips, the second-highest among cities, but had the largest negative trip-target variance. Its average fare per trip was ₹147.18.

Recommended Action
Investigate Lucknow's monthly trip gaps and low average fare before considering targeted offers to improve demand and performance.

2. Jaipur Leads in Trip Performance
Jaipur showed the strongest city-by-month trip performance, with an average trip distance of 30.02 km and an average fare of ₹483.92.

Recommended Action
Identify the factors behind Jaipur's performance and assess which practices could

3. Vadodara Consistently Missed Its Trip Targets
Vadodara achieved just 85.40% of its overall trip target and failed to meet the target in any of the six months.

Recommended Action
Conduct a city-level performance and viability review before deciding whether to restructure or discontinue services.

Repeat Passenger Rate by City

Repeat-trip Frequency Distribution

Insights & Recommendations

1. Repeat Usage Is Concentrated in Lower-Frequency Categories
New passengers outnumbered repeat passengers each month, and the two-trip category had the highest repeat-trip frequency distribution.

Recommended Action
Investigate why passengers are not returning more frequently and test retention initiatives that encourage subsequent trips.

2. Strong Trip-Performing Cities Have Acquisition and Retention Gaps
Jaipur, Mysore, Kochi, and Chandigarh performed strongly in trips but were weaker in meeting new-passenger targets and repeat-passenger rates.

Recommended Action
Prioritize passenger acquisition and retention initiatives in these cities to help sustain their strong trip performance.

3. Some Cities Acquire and Retain Passengers but Struggle With Ratings
Indore, Lucknow, Surat, and Vadodara met their new-passenger targets and ranked among the top four in repeat-passenger rate, yet fell short of their passenger-rating targets.

Recommended Action
Investigate passenger feedback and service quality in these cities to improve satisfaction and support long-term retention.

Insights & Recommendations

1. Jaipur Is the Largest Revenue Contributor
Jaipur generated ₹37.21 million of Goodcabs' total ₹108.19 million revenue over six months, substantially more than any other city.

Recommended Action
Identify the factors driving Jaipur's revenue contribution and assess whether effective practices can be applied in other cities.

2. Lucknow's High Trip Volume Does Not Translate Into Comparable Revenue
Despite recording 64,299 trips, Lucknow generated ₹9.46 million in revenue, with an average fare of ₹147.18 per trip.

Recommended Action
Investigate differences in trip distance and fare performance, and identify opportunities to improve revenue per trip without unnecessarily reducing demand.

3. Mysore's Strong Target Achievement Does Not Translate Into High Revenue
Mysore achieved its trip targets consistently and ranked second in average fare per kilometre, yet generated only ₹4.05 million in revenue.

Recommended Action
Examine total trip volume, distance travelled, and fare metrics together to understand why strong target achievement has not translated into higher revenue.
